

CONSTITUTIONAL BINGO: BY THE NUMBER

Learning Objectives: The students will...

1. Demonstrate their understanding of the Constitution of the United States.

TEKS: 5.14B, 5.14C, 5.15A, 5.15B, 5.23B

Materials Needed: Constitutional Bingo Questions, one Constitutional Bingo Card for each student, prizes (optional).

Teaching Strategy:

1. Give each student a Constitutional Bingo Card. Have students *randomly* write numbers 1-24 in the circles on their card (there are only 20 circles, so they must decide which numbers to exclude from their board).
2. Explain to the class that you are going to read a question about the Constitution of the United States and that student should write the answer to the question (every answer will be a number) in the corresponding numbered cell. So, after you read question 1, the students should write the answer to question 1 in the box they labeled with a "1" on their card.
3. When students have five answers or numbers in a row vertically, horizontally, or diagonally, they should call out "Constitution." The teacher should verify the answers and award prizes if desired. Optional: The game may continue until the whole card is full.

Extension for Gifted/Talented:

Have students create an acrostic poem using the word "CONSTITUTION." They should write the word vertically down the left side of a large piece of drawing paper. Students should then create phrases for each line. The first letter of each line dictates the beginning letter of the first word in each phrase. Phrases should describe information, concepts, and/or insights represented in the U.S. Constitution.

CONSTITUTIONAL BINGO QUESTIONS

1. How many amendments are there to the U.S. Constitution? (27)
2. Which amendment gives people freedom of speech?(1)
3. How many justices are on the United States Supreme Court? (9)
